Artistic Philosophy

My art is an exploration of identity, culture, and the world around me. I draw inspiration from the everyday experiences, traditions, and social narratives that shape our lives. Through my work, I aim to inspire reflection, conversation, and a deeper understanding of the world we inhabit.

Introduction

I am a passionate and dedicated visual artist originally from Tamil Nadu and currently settled in the vibrant artistic landscape of Kerala. With a profound love for art and a background rooted in diverse cultural experiences, my work reflects the rich tapestry of my life, culture, and the society that surrounds me.

Expertise

Etching: A meticulous and intricate form of printmaking, where I create evocative and detailed etchings that capture the essence of my subjects.

Serigraphy: The art of silk screen printing, which I use to produce vibrant and expressive pieces that convey my unique perspective.

Traditional Painting: I am well-versed in traditional painting techniques, allowing me to create both classic and contemporary works that resonate with viewers.

Digital Painting: My digital painting skills enable me to explore innovative and modern approaches to art, incorporating technology into my creative process.
