## PROFILE

I am a passionate, talented sculpture student from Kerala who is currently completing my Bachelor of Fine Arts degree at College of Fine Arts Trivandrum. I am a hardworking and dedicated student who has a great passion for creating unique sculptures. I enjoy experimenting with different materials and techniques to create sculptures that are both aesthetically pleasing and conceptually rich. My works are often figurative and I love creating sculptures that explore the relationship between humans and the natural world.

I have always been interested in art and was drawn to sculpture for its tactile nature and ability to create three-dimensional works of art. I enjoy exploring different materials including wood, clay, stone and metal and am constantly trying to push the boundaries of what is possible in sculpture. I plan to continue my studies in sculpture after graduation and hope to make a name for myself as a prominent artist from Kerala.
